

Psychosexual Therapy Service video transcript

0:00:00.480,0:00:06.800

Hello, we are the psychosexual therapy service.
We can provide specialist therapeutic support

0:00:06.800,0:00:12.880

if you are having sexual difficulties related
to erectile dysfunction, orgasmic dysfunction,

0:00:12.880,0:00:19.200

or an ejaculation or penetration disorder. If
your difficulties are influenced by stress,

0:00:19.200,0:00:26.080

anxiety, or relationship dynamics, your therapy
may involve exploring how communication with a

0:00:26.080,0:00:32.160

partner can play a key role in improving sexual
wellbeing. To access our service, you will need

0:00:32.160,0:00:39.120

to be referred by your GP. We currently do not
accept self-referrals. Your GP will complete

0:00:39.120,0:00:45.760

some tests to rule out any conditions that may
need treatment before you can start therapy. You

0:00:45.760,0:00:52.960

can find more information about the psychosexual
therapy service and what we offer on our web page.
